There is a hint in this question and a statement is given later. Carefully read the excerpts provided and make the right choices for those statements based on that expression.

Whiteswap will soon bring the feature of the much-awaited Dark Mode to its users. It is said that the work started on it for several months and will be launched this month or early next year.

From the name of the dark mode it is realized that this feature can change the white background to

black color, which makes the eyes feel more comfortable. This mode also helps to extend the battery life of smartphones.

Google has also admitted that dark mode uses 43% less power than the entire brightness of "normal mode" in its white theme material design. In Google's popular apps like YouTube and Google Maps, the feature of Dark Mode is already available. This is the main feature of Google's latest version of Android's pie. Facebook has also planned to launch Dark Mode on Messenger, the second-most popular Messenger after its WhatsAppApps.

Statement: Dark Mode is a feature that helps in saving the phone's battery.

Choose one of the right options from the following options.

- A - The statement is definitely true.
  - B - The statement is most likely to be true.
  - C - Can not determine the correct option from the statement.
  - D-Definition is definitely wrong.
- (A)  C - (Alternative 3)
- (B)  D - (Alternative 4)

There is a hint in this question and a statement is given later. Carefully read the excerpts provided and make the right choices for those statements based on that expression.

Whiteswap will soon bring the feature of the much-awaited Dark Mode to its users. It is said that the work started on it for several months and will be launched this month or early next year.

From the name of the dark mode it is realized that this feature can change the white background to black color, which makes the eyes feel more comfortable. This mode also helps to extend the battery life of smartphones.

Google has also admitted that dark mode uses 43% less power than the entire brightness of "normal mode" in its white theme material design. In Google's popular apps like YouTube and Google Maps, the feature of Dark Mode is already available. This is the main feature of Google's latest version of Android's pie. Facebook has also planned to launch Dark Mode on Messenger, the second-most popular Messenger after its WhatsAppApps.

Statement: Whatsapp is the most popular messaging application.

Choose one of the right options from the following options.

A - The statement is definitely true.

B - The statement is most likely to be true.

C - Can not determine the correct option from the statement.

D-Definition is definitely wrong.

(A)  A - (Alternative 1)

(B)  C - (Alternative 3)

(C)  B - (Alternative 2)

(D)  D - (Alternative 4)
