Q.23 Ans	In the following passage, some words have been deleted. Read the paselect the most appropriate option to fill in each blank. Global warming is a major problem. The result will be the problems cretemperatures of the Arctic region. As a result of global warming, (1)_plant distribution affect the migration patterns, feeding behaviour, and numerous bird species. The increase in the temperature may also alte may alter the (2)ecology as a whole. Greenhouse gas emfor the ongoing melting of the Arctic. This will result in a (3)_gases trap the heat in the atmosphere and the additional emissions maglobal warming process. Now, the only way to reverse the harm is for cenvironmentally sensitive. This may offer us hope that we will be able to our future generations, who presently appear to face (5)	assage carefully and in rainfall and breeding preferences of r ocean currents, which nissions are responsible loop since greenhouse ay (4) the every person to be to leave a green planet Question ID Option 1 ID Option 2 ID Option 3 ID Option 4 ID	630680171750 630680665439 630680665441 630680665442

	Comprehension: In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank.	
Global warming is a major problem. The result will be the problems created by the rising temperatures of the Arctic region. As a result of global warming, (1) in rainfall and plant distribution affect the migration patterns, feeding behaviour, and breeding preferences of numerous bird species. The increase in the temperature may also alter ocean currents, which may alter the (2) ecology as a whole. Greenhouse gas emissions are responsible for the ongoing melting of the Arctic. This will result in a (3) loop since greenhouse gases trap the heat in the atmosphere and the additional emissions may (4) the		
	global warming process. Now, the only way to reverse the harm is for every person to be environmentally sensitive. This may offer us hope that we will be able to leave a green planet to our future generations, who presently appear to face (5) SubQuestion No: 24	
0 24	Select the most appropriate option to fill in blank number 4.	
Ans	i. illiude	
	X 2. repress	
	X 3. restrain	
	✓ 4. accelerate
