- **Communications:** Allocation to the Ministry of Communications is estimated to increase by Rs 50,890 crore (93%) in 2022-23, over the revised estimate of 2021-22. This is mainly on account of capital infusion of Rs 44,720 crore in BSNL.
- **Road Transport and Highways:** Allocation to the Ministry of Road Transport and Highways is estimated to increase by Rs 67,959 crore (52%) in 2022-23, over the revised estimate of 2021-22. This is mainly on account of an increase in

investment in National Highway Authority of India (Rs 1,34,015 crore in 2022-23 as compared to Rs 65,060 crore in 2021-22).

- In 2021-22, transfer to states as support for COVID-19 vaccines was Rs 39,000 crore, higher than the budget estimate of Rs 35,000 crore. Allocation for 2022-23 is Rs 5,000 crore.
- Allocation towards the Ministries of Consumer Affairs, Food and Public Distribution, and Chemicals and Fertilisers have decreased mainly on account of a reduction in food subsidy and fertiliser subsidy, respectively. We discuss the expenditure on subsidies below.

Expenditure on Subsidies

In 2022-23, the total expenditure on subsidies is estimated to be Rs 3,55,639 crore, a decrease of 27.1% from the revised estimate of 2021-22 (Table 5).

- **Food subsidy:** Allocation to food subsidy is estimated at Rs 2,06,831 crore in 2022-23, a 27.8% decrease over the revised estimate of 2021-22. A higher level of food subsidy was budgeted in 2020-21 and 2021-22 mainly on account of: (i) Pradhan Mantri Garib Kalyan Ann Yojana, which provides for free foodgrains to poor to mitigate the impact of COVID-19, and (ii) clearing loans of Food Corporation of India.
- **Fertiliser subsidy:** Expenditure on fertiliser subsidy is estimated at Rs 1,05,222 crore in 2022-23. This is a decrease of Rs 34,900 crore from the revised estimate of 2021-22. Fertiliser subsidy for 2021-22 was increased substantially under the supplementary demands in December 2021. This was in response to a sharp increase in international prices of raw materials used in the manufacturing of fertilisers.
- **Petroleum subsidy:** Petroleum subsidy consists of subsidy for LPG and Kerosene. No kerosene subsidy has been budgeted for either 2021-22 or 2022-23. Expenditure on LPG subsidy is estimated to decrease by 10.8% to Rs 5,813 crore in 2022-23.
- **Other subsidies:** Expenditure on other subsidies includes interest subsidies for various government schemes, subsidies for the price support scheme for agricultural produce, and assistance to state agencies for procurement, among others. In 2022-23, the expenditure on these other subsidies is estimated to decrease by 31% over the revised estimate of 2021-22.

Fiscal Responsibility and Budget Management targets

The Fiscal Responsibility and Budget Management (FRBM) Act, 2003 requires the central government to progressively reduce its outstanding debt, revenue deficit and fiscal deficit. The central government gives three year rolling targets for these indicators when it presents the Union Budget each year. Note that the Medium Term Fiscal Policy Statement in both 2021-22 and 2022-23 did not provide rolling targets for budget deficits. In the Budget speech, the finance minister noted that the government aims to reduce fiscal deficit to below 4.5% of GDP by 2025-26.

Fiscal deficit is an indicator of borrowings by the government for financing its expenditure. The estimated fiscal deficit for 2022-23 is 6.4% of GDP.

Revenue deficit is the excess of revenue expenditure over revenue receipts. Such a deficit implies the government's need to borrow funds to meet expenses which may not provide future returns. The estimated revenue deficit for 2022-23 is 3.8% of GDP.

Table 8: FRBM targets for deficits (as % of GDP)

	Actuals 2020-21	Revised 2021-22	Budgeted 2022-23
Fiscal Deficit	9.2%	6.9%	6.4%
Revenue Deficit	7.3%	4.7%	3.8%
Primary Deficit	5.8%	3.3%	2.8%

Sources: Medium Term Fiscal Policy Statement, Union Budget 2022-23; PRS.

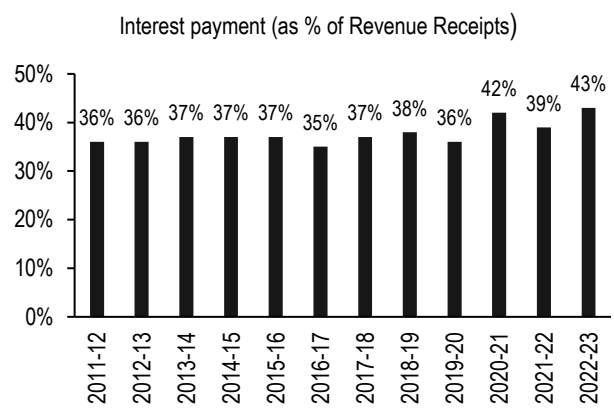

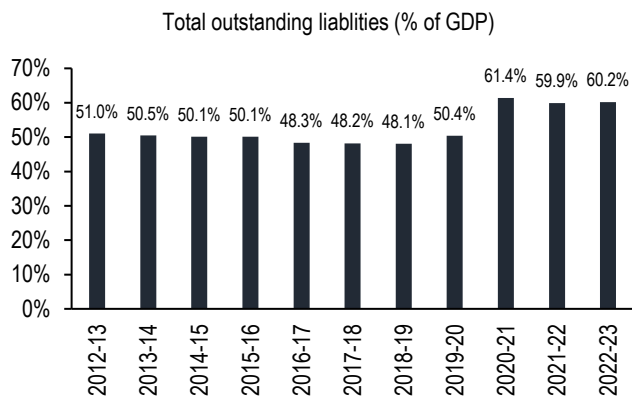

In 2021-22, the government had set a budget estimate of 6.8% of GDP for fiscal deficit, and 5.1% of GDP for revenue deficit. As per the revised estimates, the fiscal deficit is expected to marginally exceed the budget estimate to 6.9% while revenue deficit is estimated to be lower at 4.7%.

Primary deficit is the difference between fiscal deficit and interest payments. It is estimated to be 2.8% of GDP in 2022-23.

- **Outstanding Liabilities:** From 2012-13 onwards, the central government’s outstanding liabilities declined from 51% of GDP to 48% of GDP in 2018-19. It increased to 61% of GDP in 2020-21. This is estimated to decrease marginally to 60% of GDP in 2022-23.
- Outstanding liabilities is the accumulation of borrowings over the years. A higher debt implies that the government has a higher loan repayment obligation over the years.
- The interest payments as a percentage of revenue receipts have increased from 36% in 2011-12 to 42% in 2020-21. As per the budget estimates, this figure is expected to increase further to 43% in 2022-23.
