Directions (1-5): **Study the following information carefully and answer the questions given below:**

Ten persons are sitting in two parallel rows containing five person each, in such a way that there is an equal distance between adjacent persons. Each of them has a spoon made up of different materials viz. Steel, Plastic, Gold, Wood, Bronze, Copper, Ceramic, Glass, Iron and silver, but not necessary in the same order. In first row C, J, K, L and M are seated and all of them are facing south but not necessarily in the same order. In second row, P, B, U, T and E are seated and all of them are facing north but not necessarily in the same order. Therefore, in the given seating arrangement, each member seated in a row faces another member of the other row. Two persons are sitting between the persons who has gold spoon and glass spoon. L does not have a gold spoon. Immediate neighbor of U faces the person who has a Silver spoon. There are two persons sitting between the persons has copper and steel spoon. T does not face that person whose immediate neighbor has a plastic spoon. T sits third to the left of P, who has iron spoon. C, who does not have a gold spoon faces immediate neighbour of T, who has a wood spoon. K neither has a silver spoon nor a plastic spoon and sits second to the right of C. Only one person sits between J and L. B and E who have bronze and copper spoon respectively are immediate neighbour of each other. E does not face C and J.
