Q136. The traumatic months of the national lockdown lay bare many troubling truths about the profound _____ (136) of people of privilege from the working poor. They reveal a society in which the privileged are extraordinarily comfortable with inequality, and wanting in elementary empathy and solidarity. They confirm that the _____ (137) of modernity and the progressive, egalitarian values of the Constitution remain — in the prophetic words of Babasaheb Ambedkar — no deeper than a coat of paint.

In this writer's book, *Looking Away: Inequality, Prejudice and Indifference in New India*, I described the Indian rich and middle-class to be among the most uncaring in the world, _____ (138) still in the cruelties of caste and class, with a singular capacity to look at injustice and suffering and just turn their faces away. I wrote of the exile of the poor from our conscience and our consciousness. The lockdown disclosed precisely how absolute and _____ (139) is this exile. For any young person growing up in middle-class homes, the poor are visible at every turn, but only in their _____ (140) as people who exist to service our every

need. They never know them as classmates, as colleagues or competitors at work, or as friends in a playground or cinema theatre.

When the COVID-19 infection hit us, we saw the working poor suddenly as dangerous potential spreaders. We wanted them suddenly at bay. We ignored that it was not the poor who _____ (141) us, but we who endangered the poor when they came into contact with us. After all, it was people who could afford flight tickets who brought the novel coronavirus into India. We welcomed the strategy of a lockdown — possibly, the harshest and largest in the world, with the smallest relief package. We adjusted also to working from home, secure that our salaries and savings would tide us through. With running water on tap, we washed our hands regularly. We were untroubled because our health insurance would pay for treatment in expensive private hospitals. Q143. It is a matter of relief that the Supreme Court has at last taken **cognizant** (143) of the plight of millions of inter-State workers looking for transport home and relief from the unrelenting misery unleashed on them by the lockdown. This could have taken place seven or eight weeks earlier, when petitions were filed before the top court on behalf of those left in the **frantic** (144) across India after the Centre announced a lockdown, with just four hours' notice. With a kind of self-effacement and **paramount** (145) not in keeping with its institutional history, the Court had then accepted the government's sweeping claim that there were no migrants on the roads any more, and that the initial exodus of workers from cities to their home States had been set off by "fake news" to the effect that the lockdown would last for months. In an unfortunately limited **surveillance** (146), the Court merely advised the police to treat the workers on the roads with kindness and directed the media to highlight the Centre's version of the developments.

The Court's **divulgence** (147) to intervene may have stemmed from a belief in letting the executive handle the fallout of an unprecedented global crisis, but, in the process, it abandoned its primary responsibility of protecting fundamental rights, especially of those most vulnerable. Such was the resultant dismay that retired judges called it out for apparent **dismal** (148) of its duty. A former High Court judge even said the ghost of ADM Jabalpur was lingering, in an unflattering reference to an Emergency-era judgment, now mercifully overruled, that held that personal liberty was not absolute during a state of emergency. Whether it was shamed into taking recognition of the issue or

it felt that the situation is ripe for intervention, one should now expect the Court to take a more critical look at the government's lapses, and emulate the **perish(149)** role that High Courts are playing in holding administrations accountable. The top court must now find out if the Centre, which imposed a stringent lockdown to buy time for preparing the health infrastructure, had discharged its responsibilities. The government should also do more than asking its law officers to **stipulate (150)** against activists, denounce the media and question the patriotism of those critical of its actions. A national tragedy requires a more statesmanlike response.

With a kind of self-effacement and **paramount (145)** not in keeping with its institutional history, the Court had then accepted the government's sweeping claim that there were no migrants on the roads any more, and that the initial exodus of workers from cities to their home States had been set off by "fake news" to the effect that the lockdown would last for months. In an unfortunately limited **surveillance (146)**, the Court merely advised the police to treat the workers on the roads with kindness and directed the media to highlight the Centre's version of the developments.

The Court's **divulgence (147)** to intervene may have stemmed from a belief in letting the executive handle the fallout of an unprecedented global crisis, but, in the process, it abandoned its primary responsibility of protecting fundamental rights, especially of those most vulnerable. Such was the resultant dismay that retired judges called it out for apparent **dismal (148)** of its duty. A former High Court judge even said the ghost of ADM Jabalpur was lingering, in an unflattering reference to an

Emergency-era judgment, now mercifully overruled, that held that personal liberty was not absolute during a state of emergency. Whether it was shamed into taking recognition of the issue or it felt that the situation is ripe for intervention, one should now expect the Court to take a more critical look at the government's lapses, and emulate the **perish(149)** role that High Courts are playing in holding administrations accountable. The top court must now find out if the Centre, which imposed a stringent lockdown to buy time for preparing the health infrastructure, had discharged its responsibilities. The government should also do more than asking its law officers to **stipulate (150)** against activists, denounce the media and question the patriotism of those critical of its actions. A national tragedy requires a more statesmanlike response.

Sometimes it can also be used interchangeably with *however; but*. Statements (D) and (A) can be put together using **although "Although it is against the rules to use your phone, I spend much of lunch surreptitiously looking up on my phone for translations for "once upon a time" and "total eclipse of the heart"."** All the other combinations of the statements fail to be connected using "although".

S152. Ans.(a)

Sol. Option (a) is the correct choice. **Statements (B) and (D)** can be joined together using the conjunction "**notwithstanding**" which means *nevertheless; or in spite of this*. The sentence formed using the given conjunction is "**The governor kept interest rates unchanged at 1.5 percent on Tuesday, notwithstanding the improving labor market, wage growth remains low.**" However, Statements (A) and (C) are separate statements which can't be connected with any of the given statements.

S153. Ans.(c)

Sol. Option (c) is the correct choice. **Statements (C) and (D)** can be linked together using the phrasal conjunction "as much as". "**As much as**" is a phrasal conjunction used for comparison of uncountable objects; it can also be used in place of "even though". The sentence thus formed is "**Charlie Chaplin was an English comic actor, filmmaker, and composer who became known for his shooting as much as fifty times the amount of film footage necessary in order to satisfy his artistic vision.**" Other given statements couldn't be joined together using "as much as" as there are no two similar objects for comparison.

S154. Ans.(b)

Sol. Option (b) is the correct choice. **Statements (A) and (C)** can be joined to form a coherent sentence using the conjunction "rather than". "**Rather than**" is a phrasal conjunction used with the infinitive form of a verb to indicate negation as a contrary choice or wish. The sentence thus formed combining statements (A) and (C) is "**David Vincent Akins the 38-year old who was convicted last week of four counts of aggravated sexual assault of a child opted to let a judge rather than a jury render his punishment.**" Other statements are additional information on the David Vincent's case but they can't be connected with each other using the given conjunction.

S155. Ans.(a)

Sol. Option (a) is the correct choice. **Statements (A) and (B)** can be joined together using the conjunction “however”. **‘However’** is an *adverb, which is a word that modifies a verb, adjective, or group of words.* The adverb however has several different useful purposes in a sentence, as *it can join ideas together, to include an aside, or to mean ‘in whatever manner’.* Thus, the sentence then formed using statements (A) and (B) is **“Since 2007-08 India and Pakistan have not played a full bilateral series however Pakistan toured India for a short limited-overs series in 2012-13.”** The other statements fail to form a sentence together using “however”.

S156. Ans.(d)

Sol. Statements (A) and (D) can be joined together to form a coherent sentence. Conjunction **“while”** is used *to denote a same period of time; it is also sometimes used to show a contrast between the two clauses or phrases of a sentences.* Here, **“while”** is used *to show an ongoing activity at the same period of time.* The sentence thus formed using the conjunction “while” is **“while such an attack and its aftermath would not derail our eventual arrival at the next golden age, it quite possibly would delay it.”** However, the other two statements i.e., **statements (B) and (C)** describe about the similar topic but they cannot be adjoined together using the given conjunction. Hence, option (d) is the correct choice.

S157. Ans.(d)

Sol. Option (d) is the correct choice. Only **statements (B) and (D)** can be adjoined together using the conjunction “unless”. **“Unless”** is used *to express except if (used to introduce the case in which a statement being made is not true or valid).* Statement (B) is giving a situation which can be supported by a condition which is provided in statement (D). Thus, the sentence formed using the conjunction is **“An extraordinary album of photographs by the Victorian pioneer Julia Margaret Cameron will leave the UK unless a buyer with £3.7m can be found.”** Hence, as the sentence formed using statements (B) and (D) is coherent and apprehensible, thus making option (d) the most suitable choice of answer.

S158. Ans.(a)

Sol. Option (a) is the correct choice. **Statements (A) and (B)** can be joined together using the conjunction “even though”. **“even though”** is used *to express despite the fact that.* Therefore, the sentence thus formed is **“Trial judge Michael Cozens, who had also considered a conditional discharge, had focused on Josie’s daily marijuana use when sentencing her, even though it was not an issue raised by either the Crown or defence.”**

S159. Ans.(e)

Sol. Option (e) is the correct choice. Statements (A) and (C) and Statements (B) and (D) can be joined together to form coherent sentences using the conjunction “whereupon”. **“whereupon”** is a *phrasal conjunction which means immediately after which.* Thus, the sentence formed using **statements (A) and (C)** is **“The smith laments that all his property is of no value now that his watchman is slain, whereupon the young hero offers to guard his domains until a whelp of the hound has grown.”** While using **statements (B) and (D)** the sentence thus formed is **“Henry Smith was just two years old when his father died, whereupon the death of henry’s father his mother left Ireland for England.”** Hence option (e) becomes the most suitable choice of answer.

S160. Ans.(d)

Sol. Option (d) is the correct choice. **Statements (A) and (D)** can form a single sentence using the conjunction **“As soon as”**. **As soon as** is *almost always followed immediately by a noun or adjective.* It is used *to express a situation when something occurs immediately after the other thing.* Thus, the sentence formed with the **statements (A) and (D)** is **“The semi-public company Petrobras has promised to start paying dividends to shareholders again, as soon as it returns to profit after being hit by several scandals in recent years.”** Hence, with the above rationale, option (d) becomes the most suitable choice.

S161. Ans.(c)

Sol. “But” is used to introduce a phrase or clause contrasting with what has already been mentioned. Thus among the given connectors, only ‘but’ logically connects the two statements forming a comprehensive sentence. The sentence formed is **“China just finished its first EPR reactor but it was five years late and about double the budget.”** All the other connectors fail to join the statements coherently. Hence, option (c) is the most suitable answer choice.

S162. Ans.(e)

Sol. “Even if” means despite the possibility that; no matter whether. Thus among the given connectors, only ‘even if’ logically connects the two statements forming a comprehensive sentence. The sentence formed is **“Even if President Trump periodically disparages an ally, US strategy will inevitably expand its alliances in the coming years.”** All the other connectors fail to join the statements coherently. Hence, option (e) is the most suitable answer choice.

S163. Ans.(a)

Sol. “Because” means for the reason that; since. Thus among the given connectors, only ‘because’ logically connects the two statements forming a comprehensive sentence. The sentence formed is **“It is certain that I cannot always distinguish my own thoughts from those I read, because what I read becomes the very substance and texture of my mind.”** All the other connectors fail to join the statements coherently. Hence, option (a) is the most suitable answer choice.

S164. Ans.(a)

Sol. “Lest” means in order to prevent any possibility that something will happen. Thus among the given connectors, only ‘lest’ logically connects the two statements forming a comprehensive sentence. The sentence formed is **“It is best to carry your medicines and valuables on the airplane with you, lest your checked bags get lost and you lose important items.”** All the other connectors fail to join the statements coherently. Hence, option (a) is the most suitable answer choice.

S165. Ans.(b)

Sol. When using not only . . . but also in a sentence, parallelism should be the goal. It means that the words following both parts of this correlative conjunction. However, to add emphasis, we can use not only at the beginning of a clause. When we do this, we invert the subject and the verb. The sentence formed is **“Not only did Emily start playing the piano before she could speak, but her mother taught her to compose music at a very early age.”** All the other connectors fail to join the statements coherently. Hence, option (b) is the most suitable answer choice.

S166. Ans.(d)

Sol. Replace ‘wait’ by ‘waiting’ as Gerund (Verb+ing) is used after ‘keep, mind, can’t help’.

They can’t help **laughing** at him when they see him.
(Note: A Gerund is a verb form which functions as a noun and it ends in ‘ing’)

S167. Ans.(d)

Sol. Use ‘one’ in place of ‘a’. ‘Seven rupees’ has been used in the sentence in which ‘seven’ is a numerical adjective therefore ‘one’ will be used with ‘rupee’, not ‘a’.
(Note: Adjective are the words use to describe the noun)

S168. Ans.(b)

Sol. ‘the attention’ will be used in place of ‘an attention’ as here ‘attention’ is certain. Remember that in the construction ‘Noun+ of+ Noun’, ‘the’ is used before ‘Noun’ which is before ‘of’.
Example. **The** attention of the boys. (attention and boys are noun)
The life of this man. (Life and man are noun)
(Note: Article ‘The’ is used to refer to specific or particular nouns whereas ‘a/ an’ is used to modify non- specific or non- particular noun.)

S169. Ans.(e)

Sol. The sentence is grammatically correct.

S170. Ans.(b)

Sol. ‘at’ or ‘on’ will be used after ‘firing’ because ‘fire+ at/on + somebody/ something’ is the correct use.
Example. Raghu **fired at/ on** the tiger.
The Police started **firing at/ on** the crowd.

S171. Ans.(b)

Sol. Replace 'at which' by 'where'. Preposition 'to' or 'at' is not used after verb 'reach' but 'adverb of Place' is used.

Example. I **reached Delhi** around 9.
She has **reached where** she wanted.

S172. Ans.(c)

Sol. The use of 'rather' is superfluous as only 'than' is used after comparative degree (more).

Example. He speaks **more** clearly **than** you.

S173. Ans.(c)

Sol. 'Has fallen' will be used in place of 'has been fallen' as there is no passive form of intransitive verb (fall).

(Note: Verbs are of two types namely transitive verbs and intransitive verbs. Transitive verbs need an object while Intransitive verbs cannot have an object. Ex. "I bought a car" in which 'bought' is transitive. "The Baby smiled", 'smiled' is an intransitive verb)

S174. Ans.(a)

Sol. Replace 'When he used to walk' with 'while he was walking'. For the two incidents of past, if one continues and the other one has happened, then past continuous tense is used for the former and simple past for latter.

Example. While I **was walking** along the road, a mad dog attacked me.

S175. Ans.(e)

Sol. The sentence is grammatically correct.

S176. Ans.(c)

Sol. Option (i) is grammatically incorrect. Use 'brother' in place of 'brothers' as after 'One of' we use a plural noun.

S177. Ans.(a)

Sol. (ii) Use 'were' in place of 'was' as the subject is 'all the people' which is plural.

(iii) Use 'since' in place of 'for' as 'since' is used for 'point of time' and 'for' is used for 'period of time'.

S178. Ans.(b)

Sol. (i) Use 'these kinds' in place of 'these kind' as 'these' is plural after which plural noun must be used.

(ii) Use 'have' in place of 'has' as the subject "the recent changes" is plural.

S179. Ans.(b)

Sol. (i) 'not different from that of' will be used as the comparison is not between two people but with their suggestion.

(iii) The use of 'study' is superfluous.

S180. Ans.(d)

Sol. (iii) 'was prepared to' will be used in place of 'has prepared to' as the given sentence is an indirect narration whose reporting verb 'declared' is in past tense and therefore the reported speech will also be in past tense.

(ii) Use 'brought him' in place of 'brought with him'.
Bring, buy, give + Indirect Object + Direct Object.

(i) Use 'have been living' in place of 'are living' as the sentence must be in present perfect continuous due to the use of "for the last five years."

S181. Ans.(c)

Sol. Use public opinion in place of 'public's opinion' as public/hostel/city are used both as noun and as adjective and the use of 's' with it is incorrect.

S182. Ans.(d)

Sol. Here 'work' is used as an uncountable noun. The use of 'an' before 'urgent' is incorrect. Use 'some' in place of 'an' or we can use it like this "a piece of urgent work"

S183. Ans.(d)

Sol. The error is in part (d) of the sentence. Use 'is' in place of 'are' as the subject of the sentence is 'the idea' which is singular.

S184. Ans.(a)

Sol. The error is in part (a) of the sentence. Use 'it appears' in place of 'It is appearing' as when 'appear' is used to mean 'seem' then it is used in simple tense and not in continuous tense.

S185. Ans.(b)

Sol. The error is in part (b) of the sentence. Use 'many' in place of 'much' because 'much' is a quantitative adjective after which uncountable noun is used.

S186. Ans.(b)

Sol. Remove 'to' after but as after any form of 'do' if but is used to mean 'except' and if a verb is used after it then the verb is used without 'to'.

S187. Ans.(b)

Sol. 'Enough' will be used after 'kind' as when enough is used as adverb of quantity then enough is always used after the adjective or adverb.

S188. Ans.(b)

Sol. 'Whether' will be used after 'if' which can be figured out by the use of 'or' that construction is based on 'whether.....or'.

S189. Ans.(e)

Sol. There is no error in the given statement.

S190. Ans.(e)

Sol. There is no error in the given statement

S191. Ans.(c)

Sol. Option (c) is the correct choice for the given question as the correct sequence is BACD. Statement (E) is incorrect and inconsistent if we are considering the theme of the statements. BACD is correct and is meaningful.

S192. Ans.(d)

Sol. Option (d) CABD is a correct choice as it is making a meaningful sentence. Comprehension means understanding so the statement is discussing that the refusal of the central government (which is what) to appreciate the legal point is difficult to understand. CABD forms a coherent meaningful sentence.

S193. Ans.(b)

Sol. Option (b) is the correct choice for the given question. The use of statement (E) makes it necessary to use a statement which implies that we require a system which considers every aspect of the society.

S194. Ans.(b)

Sol. Option (b) is the correct choice for the given question. Part (E) is incorrect as mandate means an official order or commission to do something while the sentence as the whole is discussing the feature of globalization which led to the trade deficit.

S195. Ans.(d)

Sol. Option (d) is the correct choice for the question. **BEDC** is the correct sequence. Part (A) is not in harmony with the theme of the sentence. Marginalization means treatment of a person, group, or concept as insignificant or peripheral.

S196. Ans.(d)

Sol. 'was' will be used in place of 'were' as the subject of the sentence 'the colour' is singular.

S197. Ans.(b)

Sol. Use 'was' instead of 'were'

S198. Ans.(d)

Sol. Use 'was' in place of 'were' because if two subjects get connected 'with, along with, together with', then verb is used according to the subject close to it.

Ex. Mohini together with her parents is...

S199. Ans.(a)

Sol. 'at' is the correct use in place of 'upon' as 'look at' means to glance or gaze in a manner specified.

S200. Ans.(d)

Sol. 'a' will be used in place of 'its'.
