Read the following passage and answer the questions that follow.

The Sumerians were the first known people to settle in Mesopotamia over 7,000 years ago. Located in the southernmost part of Mesopotamia between the Tigris and Euphrates rivers (modern day Iraq), Sumer was often called the cradle of civilization. By the 4th millennium BC, it had established an advanced system of writing, spectacular arts and architecture, astronomy and mathematics. The Akkadians would follow the Sumerians, borrowing from their culture, producing a new language of their own, and creating the world's first empire.

The Sumerians were among the first known cultures to develop many benchmarks that are used to define a "civilization". They are credited with the establishing codes of law, the plough, the sailboat, and a lunar calendar. They also developed a numerical system, based on the number 60 that is still used to measure seconds and minutes. However, probably the most famous legacy is their writing system. The Sumerians devised one of the earliest writing system known as cuneiform or wedge-shaped symbols. The earliest known cuneiform inscriptions were found in the lower Tigris-Euphrates Valley in what is now south-eastern Iraq and date from about 3,000 BC. Writers made the symbols by pressing a pointed instrument called a stylus into wet clay tablets.

The Sumerians, however, did not invent paper and used a different medium for their cuneiform script. Documents and text were inscribed by the Sumerians on clay tablets, which has the advantage of greater durability than paper. One of the consequences of this is that a large number of Sumerian clay tablets have survived over the millennia and have been unearthed by archaeologists. Once the Sumerian language was deciphered, much information could be obtained from these tablets. The Sumerian language is considered to be a language isolate, which means that there is currently no known language related to it. This language emerged in the Sumerian civilization, which was based in southern Mesopotamia (modern day southern Iraq), and was first attested around 3100 BC. In the millennium that followed, the Sumerian civilization flourished and with it their language. During the 24th century BC, northern and southern Mesopotamia were unified under the Akkadians, who created the world's first empire. The Akkadian language gradually replaced Sumerian as a spoken language. Nevertheless, the Sumerian language continued as a written language for a much longer period of time, though its usage was greatly diminished. Written Akkadian ceased to be used around the beginning of the Christian period and Sumerian went extinct shortly before this happened.

Read the following passage and answer the questions that follow.

The world is full of possibilities and some folks are able to find jobs that one never imagined existed.

Take Surjeet, for example. The young gentleman is a train driver. Nothing unusual. But he drives a toy train that doesn't chug along in a zoo or an adventure park but in a city shopping mall.

"I spend the whole day driving the train here on the mall's ground floor," he says, as his four —coach train halts at the ticket counter—the service is operated by an adventure games company. The mall is huge and the rupees 200 joy-ride consists of two rounds that take about ten minutes. One might naturally be curious about the series of circumstances that led Surjeet to such an unlikely line of employment. But it is not so surprising on following the arc of his life. He began his career at a 'fun park' in Silliguri, West Bengal, where he manned the counter at a video games parlour. Soon afterwards, he says, the park started a toy train service for kids and I successfully applied for the vacancy. He went on to do more such 'toy train jobs' in Kolkata and Raipur before settling down in this Gurugram mall some six months ago.

"I watch little children having such a good time and that makes me feel good," says the driver while waiting for a fresh batch of customers.

Some minutes later the mall starts echoing with the sound of bells. That's Surject warning the mall shoppers to make way for his express.

# निम्नलिखित गद्यांश को पढ़कर उसके सही उत्तर दीजियेI

प्रकृति और मानव का सम्बन्ध अत्यंत प्राचीन है। प्रकृति का मानव से हृद्य से और आत्मा जैसा सम्बन्ध है। आदिकाल से ही प्रकृति मानव की सहचरी रही है। आदिकाल मे मानव ने प्रकृति की गोद में ही जन्म लिया और उसी से अपने भरण पोषण की सामग्री प्राप्त की। प्रकृति ने मानव जीवन को संपन्न किया। प्रकृति के उपकारों के कारण ही भारत के महान ऋषियों ने इसके तत्वों जैसे सूर्य, चन्द्रमा निद्याँ, पर्वत, वृक्ष, आदि को पवित्र मानते हुए उन्हें देवत्व का रूप प्रदान करके उनकी स्तुति की। पृथ्वी को माता कहकर सम्बोधित करने के पीछे भी मानव की प्रकृति के प्रति आभार प्रदर्शन की भावना ही निहित है। सभ्यता के विकास तथा वैज्ञानिक प्रगति के कारण मनुष्य प्रकृति को अपनी सहचरी के स्थान पर चेरी बनाने का दुःस्वप्न देखने लगा और उसने प्रकृति का दोहन शुरू कर दिया जिसका परिणाम उसे अनेक प्राकृतिक विपदाओं के रूप में झेलना पड़ा। मानव प्रकृति के गूढ़ रहस्यों को खोजने में संलग्न है तथा प्रकृति से विमुख होता जा रहा है। अदूरदर्शी एवं स्वार्थी मानव यह नहीं जानता कि प्रकृति ही उसके निर्माण, सृजन तथा विकास की जननी है। प्रकृति के बिना किसी प्रकार के विकास एवं प्रगित की कल्पना भी नहीं की जा सकती।

# निम्नलिखित गद्यांश को पढ़कर उसके सही उत्तर दीजिये।

प्रकृति और मानव का सम्बन्ध अत्यंत प्राचीन है। प्रकृति का मानव से हृदय से और आत्मा जैसा सम्बन्ध है। आदिकाल से ही प्रकृति मानव की सहचरी रही है। आदिकाल में मानव ने प्रकृति की गोद में ही जनम लिया और उसी से अपने भरण पोषण की सामग्री प्राप्त की। प्रकृति ने मानव जीवन को संपन्न किया। प्रकृति के उपकारों के कारण ही भारत के महान ऋषियों ने इसके तत्वों जैसे सूर्य, चन्द्रमा नदियाँ, पर्वत, वृक्ष, आदि को पवित्र मानते हुए उन्हें देवत्व का रूप प्रदान करके उनकी स्तुति की । पृथ्वी को माता कहकर सम्बोधित करने के पीछे भी मानव की प्रकृति के प्रति आभार प्रदर्शन की भावना ही निहित है। सभ्यता के विकास तथा वैज्ञानिक प्रगति के कारण मनुष्य प्रकृति को अपनी सहचरी के स्थान पर चेरी बनाने का दुःस्वप्न देखने लगा और उसने प्रकृति का दोहन शुरू कर दिया जिसका परिणाम उसे अनेक प्राकृतिक विपदाओं के रूप में झेलना पड़ा। मानव प्रकृति के गूढ़ रहस्यों को खोजने में संलग्न है तथा प्रकृति से विमुख होता जा रहा है। अदूरदर्शी एवं स्वार्थी मानव यह नहीं जानता कि प्रकृति ही उसके निर्माण, सृजन तथा विकास की जननी है। प्रकृति के बिना किसी प्रकार के विकास एवं प्रगति की कल्पना भी नहीं की जा सकती।

निम्नलिखित गद्यांश को पढ़कर उसके सही उत्तर दीजियेI

भोर का झुटपुटा छँटने लगा था। शीतल, मंद-सुगन्धित हवा में ताज़गी और उत्फुल्लता बढ़ चली थी। तभी पूर्व के आकाश में, मंदिर के शिखर के ठीक पीछे से सूर्य का लाल अंगार-सा गोला उठा जो देखते-देखते पीताभ होकर सुनहरी रश्मियों का जाल-सा बनकर चकाचौंध पैदा करने लगा। क्षण-भर में ही असंख्य फूल मुस्करा उठे और देखते-देखते जाने कहाँ से सतरंगी तितलियां और मधु-लोभी भौरे उन पर मँडराने लगे। सारा दृश्य ही मनोमुग्धकारी हो उठा था।
