Read the given passage and answer the questions that follow.

All it took West Bengal Chief Minister Mamata Banerjee to end the week-long strike by junior doctors in the State was a meeting with the agitating medicos and a credible assurance that their safety was a priority for her government. The attack on a junior doctor on June 10 over the death of a patient had sparked the agitation, which spread to other parts of the country when it appeared that the State government was reluctant to negotiate with the striking doctors. Now that Ms. Banerjee has reached out to young doctors and conceded that their demands are genuine, the government, in West Bengal and elsewhere, must focus on addressing the deficiencies afflicting the health-care system as a whole. Reprisal attacks on doctors by agitated relatives of patients who die during treatment are known to happen. Such violence is invariably the result of systemic problems that adversely affect optimal attention to patients, such as infrastructural and manpower constraints. It is apparent that doctors work in stressful environments, sometimes under political pressure with regard to admissions. Several States have enacted laws to protect doctors and other health-care personnel from violence. Last week, Union Health Minister Harsh Vardhan wrote to State governments highlighting the need for stringent action against anyone who assaults doctors. He asked States that do not have a law to protect doctors against violence to enact one, and circulated a 2017 draft of a law that envisaged imprisonment besides recovery of compensation from perpetrators for loss or damage to property.

However, is such a law really effective? Ironically, West Bengal, the epicenter of a strike that involved nearly the entire medical fraternity across the country, has such a law too. Like the law in most other States, the West Bengal Act provides for a three-year prison term and a fine, which could go up to ₹50,000, to anyone indulging in violence against any "Medicare service person", which covers doctors, nurses, medical and nursing students and paramedical staff. The offence is cognizable and non-bailable. It also provides for recovery of compensation for loss. Many other States have similar laws, with the one in Tamil Nadu providing for a prison term that could go up to 10 years. It is clear that having this law did not prevent the incident that sparked the latest agitation. There are no figures available on how many times the medical service person protection law has been invoked. In any case, causing simple or grievous injuries to anyone is a criminal offence under the Indian Penal Code. Treating the issue as a law and order problem is just one way. The real solution may lie in improving health infrastructure, counselling patients about possible adverse treatment outcomes, and providing basic security in medical institutions.

Like the law in most other States, the West Bengal Act provides for a three-year prison term and a fine, which could go up to \$\pi 50,000\$, to anyone indulging in violence against any "Medicare service person", which covers doctors, nurses, medical and nursing students and paramedical staff. The offence is cognizable and nonbailable. It also provides for recovery of compensation for loss. Many other States have similar laws, with the one in Tamil Nadu providing for a prison term that could go up to 10 years. It is clear that having this law did not prevent the incident that sparked the latest agitation. There are no figures available on how many times the medical service person protection law has been invoked. In any case, causing simple or grievous injuries to anyone is a criminal offence under the Indian Penal Code. Treating the issue as a law and order problem is just one way. The real solution may lie in improving health infrastructure, counselling patients about possible adverse treatment outcomes, and providing basic security in medical institutions.

# निम्नलिखित गद्यांश को पढ़कर उनसे संबंधित प्रश्नों के उत्तर दीजिए।

तुम्हें क्या करना चाहिए, इसका ठीक-ठीक उत्तर तुम्ही को देना होगा, दूसरा कोई नहीं दे सकता। कैसा भी विश्वास-पात्र मित्र हो, तुम्हारे इस काम को वह अपने ऊपर नहीं ले सकता। हम अनुभवी लोगों की बातों को आदर के साथ चुने, बुद्धिमानों की सलाह को कृतज्ञतापूर्वक मानें, पर इस बात को निश्चित समझकर की हमारे कामों से ही हमारी रक्षा व हमारा पतन होता, हमें अपने विचार और निर्णय की स्वतंत्रता को दृढ़तापूर्वक बनाए रखना चाहिए। जिस पुरूष की दृष्टि सदा नीची रहती है उसका सिर कभी ऊपर न होगा। नीची दृष्टि रखने से यद्यपि रास्तें पर रहेंगे, पर इस बात को न देखेंगे कि यह रास्ता कहाँ ले जाता है। चित्त की स्वतंत्रता का मतलब चेष्टा की कठोरता या प्रकृति की उग्रता नहीं है। अपने व्यवहार में कोमल रहो और अपने उद्देश्यों को उच्च रखो इस प्रकार नम्र और उच्चश्य दोनो बनो। अपने मन को कभी मरा हुआ न रखो। जो मनुष्य अपना लक्ष्य जितना ही ऊपर रखता है, उतना ही उसका तीर ऊपर जाता है।

संसार में ऐसे-ऐसे दृढ़ चित्त मनुष्य हो गए हैं जिन्होनें मरते दम तक सत्य की टेक नहीं छोड़ी, अपनी आत्मा के विरूद्ध कोई काम नहीं किया। राजा हरिशचन्द्र के ऊपर इतनी विपत्तियाँ आई, पर उन्होंने अपना सत्य नही छोड़ा।
