Answer the questions based on the following passage.

India is facing one of its major and most serious water crisis.

After two consecutive years of weak monsoons, 330 million people — a quarter of the country's population — are affected by a severe drought. With nearly 50 percent of India grappling with drought-like conditions, the situation has been particularly grim this year in western and southern states that received below average rainfall.

According to the Composite Water Management Index (CWMI) report released by the Niti Aayog in 2018, 21 major cities (Delhi, Bengaluru, Chennai, Hyderabad and others) are racing to reach zero groundwater levels by 2020, affecting access for 100 million people.

However, 12 percent of India's population is already living the 'Day Zero' scenario, thanks to excessive groundwater pumping, an inefficient and wasteful water management system and years of deficient rains. The CWMI report also states that by 2030, the country's water demand is projected to be twice the available supply, implying severe water scarcity for hundreds of millions of people and an eventual six percent loss in the country's GDP.

The Union government recently formed a new Jal Shakti (water) ministry, which aims at tackling water issues with a holistic and integrated perspective on the subject. The ministry has announced an ambitious plan to provide piped water connections to every household in India by 2024.

The ministry has set a tough target at a time when hundreds of millions don't have access to clean water. Aiming at laying huge pipeline networks for water supply means that yet again, we are giving more preference to infrastructure. Also, the moot questions are: what will happen if there is no water to supply? What will happen to all the wastewater that gets generated?

We are valuing land more than water, neglecting our local water bodies, which have either gone dry or encroached. Also, in many Indian cities, water is not properly distributed. Some areas of mega cities like Delhi and Mumbai are privileged to get more than the standard municipal water norm of 150 litres per capita per day while other areas get 40-50.

Looking at the current situation, there is a need for a paradigm shift. We urgently require a transition from this 'supply-and-supply-more water' provision to measures which lead towards improving water use efficiency, reducing leakages, recharging/restoring local water bodies as well as applying for higher tariffs and ownership by various stakeholders.

It is important to understand that managing the water situation is not the job of only engineers but all stakeholders including hydro geologists, economists, planners and most importantly, communities themselves. But locals/citizens/communities have a huge part to play. By keeping in check our own usage and actions, we can contribute.

As for our decision-makers, they need to re-think: Are we being sold dreams or realities?

"निम्नलिखित गद्यांश को पढ़कर दिए गए प्रश्न का उत्तर दें।

यदि साहित्य समाज का दर्पण होता तो संसार को बदलने की बात न उठती। कवि का काम यथार्थ जीवन को प्रतिबिम्बित करना ही होता तो वह प्रजापित का दर्जा न पाता। वास्तव में प्रजापित ने जो समाज बनाया है, उससे असंतुष्ट होकर नया समाज बनाना कवि का जन्मसिद्ध अधिकार है।

किव की यह सृष्टि निराधार नहीं होती। हम उसमें अपनी ज्यों-की-त्यों आकृति भले ही न देखें, पर ऐसी आकृति जरूर देखते हैं जैसी हमें प्रिय है, जैसी आकृति हम बनाना चाहते हैं। किव अपनी रुचि के अनुसार जब विश्व को परिवर्तित करता है तो यह भी बताता है कि विश्व से उसे असंतोष क्यों है। वह यह भी बताता है कि विश्व में उसे क्या रूचता है। जिससे वह फलता फूलता देखना चाहता है उसके चित्र के चमकीले रंग और पार्श्व-भूमि की गहरी काली रेखाएं-दोनों ही यथार्थ जीवन से उत्पन्न होते हैं। इसलिए प्रजापित किव गंभीर यथार्थवादी होता है, ऐसा यथार्थवादी जिसके पाँव वर्तमान की धरती पर हैं और आँखें भविष्य की क्षितिज पर लगी हुई हैं। इसलिए मनुष्य साहित्य में अपने सुख-दुख की बात ही नहीं सुनता, वह उसमें आशा का स्वर भी सुनता है।

पंद्रह्वीं-सोलह्वीं सदी में हिंदी साहित्य ने यही भूमिका पूरी की थी। सामंती पिंजड़े ने बंद मानव-जीवन की मुक्ति के लिए उसने वर्ण और धर्म के सीकंजों पर प्रहार किए थे। कश्मीरी ललदेह, पंजाबी नानक, हिंदी सूर-तुलसी-मीरा-कबीर बंगाली चंडीदास, तिमल तिरूवल्लुवर आदि, गायकों ने आगे पीछे समूचे भारत में उस जीर्ण मानव संबंधों के पिंजड़े को झकझोर दिया था। इन गायकों की वाणी ने पीडि़त जनता के मर्म को स्पर्श कर उसे नए जीवन के लिए बटोरा, उसे आशा दी, और जहाँ-तहाँ जीवन को बदलने के लिए आमंत्रित भी किया।

Question Label: Comprehension

यदि साहित्य समाज का दर्पण होता तो संसार को बदलने की बात न उठती। कवि का काम यथार्थ जीवन को प्रतिबिम्बित करना ही होता तो वह प्रजापित का दर्जा न पाता। वास्तव में प्रजापित ने जो समाज बनाया है, उससे असंतुष्ट होकर नया समाज बनाना कवि का जनमसिद्ध अधिकार है।

कवि की यह सृष्टि निराधार नहीं होती। हम उसमें अपनी ज्यों-की-त्यों आकृति भले ही न देखें, पर ऐसी आकृति जरूर देखते हैं जैसी हमें प्रिय है, जैसी आकृति हम बनाना चाहते हैं। किव अपनी रुचि के अनुसार जब विश्व को परिवर्तित करता है तो यह भी बताता है कि विश्व से उसे असंतोष क्यों है। वह यह भी बताता है कि विश्व में उसे क्या रूचता है। जिससे वह फलता फूलता देखना चाहता है उसके चित्र के चमकीले रंग और पार्श्व-भूमि की गहरी काली रेखाएं-दोनों ही यथार्थ जीवन से उत्पन्न होते हैं। इसलिए प्रजापित किव गंभीर यथार्थवादी होता है, ऐसा यथार्थवादी जिसके पाँव वर्तमान की धरती पर हैं और आँखें भविष्य की क्षितिज पर लगी हुई हैं।

इसलिए मनुष्य साहित्य में अपने सुख-दुख की बात ही नहीं सुनता, वह उसमें आशा का स्वर भी सुनता है।

पंद्रहवीं-सोलहवीं सदी में हिंदी साहित्य ने यही भूमिका पूरी की थी। सामंती पिंजड़े ने बंद मानव-जीवन की मुक्ति के लिए उसने वर्ण और धर्म के सीकंजों पर प्रहार किए थे। कश्मीरी ललदेह, पंजाबी नानक, हिंदी सूर-तुलसी-मीरा-कबीर बंगाली चंडीदास, तमिल तिरूवल्लुवर आदि, गायकों ने आगे पीछे समूचे भारत में उस जीर्ण मानव संबंधों के पिंजड़े को झकझोर दिया था। इन गायकों की वाणी ने पीडिंत जनता के मर्म को स्पर्श कर उसे नए जीवन के लिए बटोरा, उसे आशा दी, और जहाँ-तहाँ जीवन को बदलने के लिए आमंत्रित भी किया।
