

Quiz Date: 25th May 2020

Q1.The term attribute refers to a _____ of a table.

- (a) Record
- (b) Column
- (c) Tuple
- (d) Key
- (e) Relation

Q2.Before use of DBMS information was stored using:

- (a) Cloud Storage
- (b) Data System
- (c) File Management System
- (d) Cloud Computing
- (e) None of these

Q3.What does JAR stand for?

- (a) JQuery Application Rapid-development
- (b) Java Application Resolution
- (c) Java Archive
- (d) JQuery Application Resolution
- (e) None of the above

Q4.Which among the following option specifies this action: Holding the mouse button down while moving an object of text?

- (a) moving
- (b) dragging
- (c) saving
- (d) highlighting
- (e) None of these

Q5.Name the program a personal computer's microprocessor uses to get the computer system started after you turn it on.

- (a) BIOS
- (b) VAIO
- (c) I/O
- (d) AVG
- (e) VMware

Q6.Which of the following is the communication protocol that sets the standard used by almost every computer that accesses web based information?

- (a) XML
- (b) DML
- (c) HTTP
- (d) HTML
- (e) RIP

BANKERS

adda247

Q7.What is the attempt to acquire sensitive information such as usernames, passwords, and credit card details (and sometimes, indirectly, money) by masquerading as a trustworthy entity in an electronic communication?

- (a) Phishing
- (b) Spoofing
- (c) Identity theft
- (d) Authentication
- (e) Spamming

Q8.Which one of the following is an Indian super computer?

- (a) Tianhe-2
- (b) VIRGO
- (c) Titan
- (d) Shaheen II
- (e) None of these

Q9.Digital computers use a _____ system to encode data and programs.

- (a) Semiconductor
- (b) Decimal
- (c) Binary
- (d) RAM
- (e) ROM

Q10.Communication channel is shared by all the machines on the network in:

- (a) broadcast network
- (b) unicast network
- (c) multicast network
- (d) Internet Protocol Address
- (e) none of the above

Q11.Bluetooth is an example of:

- (a) personal area network
- (b) local area network
- (c) virtual private network
- (d) wide area network
- (e) solid state storage

Q12.Which among the following is a type of device that is used for identifying people by their unique characteristics?

- (a) biometric device
- (b) Web camera
- (c) joystick
- (d) scanner
- (e) None of these

Q13.Workbook is a collection of _____ in MS Excel?

- (a) page set-up
- (b) buttons
- (c) diagrams
- (d) charts
- (e) worksheets

Q14. Which of the following is a software used for Remote Connection?

- (a) TeamViewer
- (b) Picasa
- (c) Prisma
- (d) Safari
- (e) Intel Connect

Q15. _____ are used to quickly accept, store and transfer data and instructions that are being used immediately by the CPU.

- (a) Registers
- (b) Caches
- (c) RAMs
- (d) Graphics
- (e) None of these

Solutions

S1. Ans. (b)

Sol. Attribute may refer to columns in a table and tuple refers to rows in a table.

S2. Ans. (c)

Sol. Earlier File Management Systems were used, before the usage of DBMS.

S3. Ans. (c)

Sol. In software, JAR (Java Archive) is a package file format typically used to aggregate many Java class files and associated metadata and resources (text, images, etc.) into one file to distribute application software or libraries on the Java platform.

S4. Ans. (b)

Sol. Dragging is the gesture of Holding the mouse button down while moving an object of text or image or any file or its part.

S5. Ans. (a)

Sol. BIOS (basic input/output system) is the program a personal computer's microprocessor uses to get the computer system started after you turn it on. It also manages data flow between the computer's operating system and attached devices such as the hard disk, video adapter, keyboard, mouse and printer.

S6. Ans. (c)

Sol. The Hypertext Transfer Protocol (HTTP) is an application protocol for distributed, collaborative, hypermedia information systems. HTTP is the foundation of data communication for the World Wide Web.

S7. Ans.(a)

Sol. Phishing is typically carried out by e-mail spoofing or instant messaging, and it often directs users to enter details at a fake website whose look and feel are almost identical to the legitimate one.

S8. Ans.(b)

Sol. VIRGO is a supercomputer that was developed by IIT Madras. Tianhe-2 is a super computer that was built by China. Titan is a supercomputer that belongs to USA and Shaheen II is a supercomputer that was built by Saudi Arabia.

S9. Ans. (c)

Sol. Digital Computers use Binary System.

S10. Ans.(a)

Sol. Broadcast networks: It has a single communication channel that is shared by all the machines on the network. Short messages, called packets in certain contexts, sent by any machine are received by all the others.

S11. Ans.(a)

Sol. A personal area network (PAN) is a computer network used for data transmission amongst devices such as computers, telephones, tablets and personal digital assistants. Bluetooth is an example of the same.

S12. Ans.(a)

Sol. A biometric device is a type of device that records the unique characteristics such as finger prints because it is impossible to have two different persons with the same fingers prints.

S13. Ans.(e)

Sol. A workbook is a collection of worksheets.

S14. Ans. (a)

Sol. TeamViewer is a proprietary computer software package for remote connection, desktop sharing, online meetings, web conferencing and file transfer between computers.

S15. Ans.(a)

Sol. A register may hold an instruction, a storage address, or any kind of data (such as a bit sequence or individual characters)
